SELECTION FOCUS

DURING MECHANICAL INSTALLS & INSPECTIONS

10–12 weeks

The list below summarizes the selection items associated with this phase of construction. Some items may not apply to your home; we've included them for completeness in the event you choose to add features during the process.

Selections made after the applicable deadline may result in additional costs or a delay in your completion date. We'll work with you to flag upcoming deadlines in advance.

A reference to a specific selection does not necessarily mean that feature is included in the contract price of your home. Please refer to your specifications to determine if the feature is included.
